

# Master exams – Winter 2021 Session

## Mobilization, quarantine, isolation

04/12/2020

This document should provide you with details about the Winter 2021 exam session that will take place from January 15 to February 6, 2021. Please note that exam conditions **may change at any time** as the pandemic evolves. Read your emails @unil.ch regularly.

### Online or in-face-to-face exams

- Most of the exams will take place online on [MoodleExam](#). Please refer to the [Moodle](#) information for more information.
- For the moment, the following exams have been announced to the Unil management as being face-to-face:

Alternative Investments	Thomas Cho
Genes, population, and evolution	Laurent Lehmann
lxD design	Mauro Cherubini
Macro Finance	Pascal St-Amour
Microeconomics	Bettina Klaus
Quantitative Methods for Management	Jérôme Reboulleau
Séminaire Restructuration financière	Philippe Tzaud
Strategic Marketing	Markus Christen
- However, the situation could still change, either towards more or less presence.
- The exam schedules and rooms will be communicated to you at a later date.

### Mobilization

- Students mobilized for the Army or Civil Protection benefit either :
  - a. an absence from the exams not leading to a simple failure with the possibility of retaking the exams (August 2021) or
  - b. an alternative evaluation at the discretion of the professor. For example, a student may be required to take an oral exam rather than a written exam.
- Upon receipt of your convocation, it should be sent to [HECmasterExamen@unil.ch](mailto:HECmasterExamen@unil.ch).

### Quarantine

- Students who are quarantined because of COVID-infection in a household member's home will receive the same benefits as those who are mobilized (see the "mobilization" section).
- Only the certificate from the Cantonal Doctor of the infected person with whom you live will be accepted as proof of quarantine. The dates on the certificate are proof and must correspond to the date of the examination(s).
- You will also have to provide proof of cohabitation (such as a lease, certificate of resident control, joint bills) with the person placed in isolation.
- The certificate and proof of cohabitation must be sent to [HECmasterExamen@unil.ch](mailto:HECmasterExamen@unil.ch) no later than seven days after the first absence.

### Isolation (COVID sick person only)

- Students placed in isolation by the Cantonal Doctor enjoy the same benefits as those mobilized (see the "mobilization" section).

- However, if the student does not feel healthy enough to undergo an alternative assessment, variant "a" of the benefits listed in the "mobilization" section applies. A student who is placed in isolation and decides to undergo the assessment anyway accepts the risks and consequences.
- Only the certificate of the Cantonal Doctor for isolation is accepted. The dates on the certificate are authentic and must correspond to the date of the exam(s). The certificate must be sent to [HECmasterExamen@unil.ch](mailto:HECmasterExamen@unil.ch) no later than seven days after the first absence.

#### **Attempts at assessments**

- The normal regulations of the Faculty of HEC apply. This means that students are no longer entitled to an additional attempt as of the Winter 2021 exam session.
